

# Career & Technical Education

...

Building Partnerships to Impact the Community

# What is Career & Technical Education?

Let's take a trip down memory lane - the history of CTE

Apprenticeships are the first form of CTE

Industry Revolution - change from farming to industry

Schools and training programs replaced Apprenticeships

Trade Schools - late 19th century

Some technical, some technical and general

# CTE continued...

20th Century

Secondary Education available, not mandatory

Vocational Education becomes the “new” vocab

Wars have impact on Vocational Education and Govt. support

Space Race - Technology focus

80's and 90's - Tech Boom - Skills and training needed

# Vocational Education

- Specific students
- Limited program offerings
- Separate Track
  - Focus on vocational training
- High School
  - Career vs College
- Students trained with focus on specific skill

# From Vocational Education...

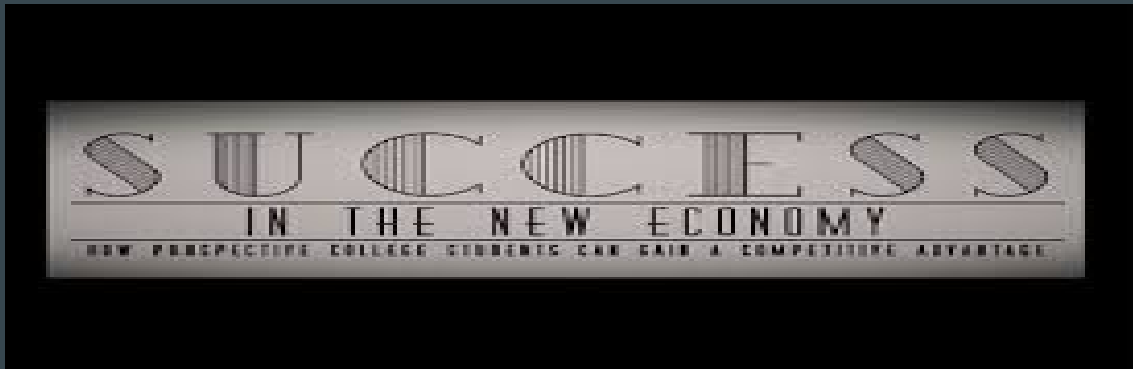

# ...To CTE

# 21st Century

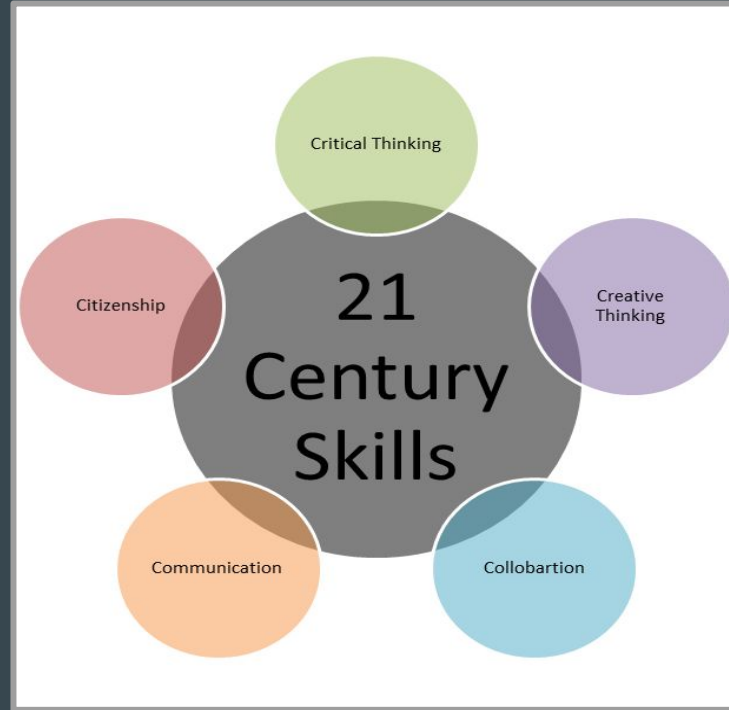

## Success in the New Economy

# 21st Century Skills

# CTE Programs in Greene

Auto Technology

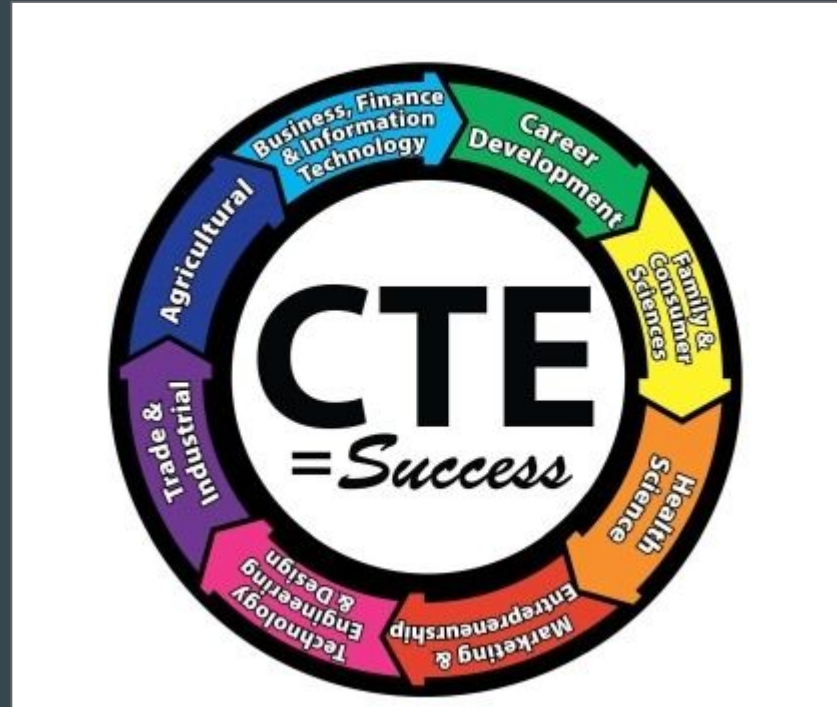

Building Trades

Cosmetology
